DyDo holds event entitled “ESG Roundtable: Initiatives to Spread the Group Philosophy and Strategy for Achieving Future Growth”

DyDo considers it important to incorporate the perspective known as ESG (environmental, social, and governance) into its management through constructive dialog with stakeholders in order to facilitate sustained growth over the long term. On May 30, 2018, we held an ESG roundtable to deepen dialog between President Takamatsu, Outside Director Inoue, and institutional investors.

The meeting began with President Takamatsu sharing the purpose for which it was being held and continued with an explanation of topics including the Group's history, the process that led to the formulation of the Group Philosophy and Group Vision in 2014 at the start of President Takamatsu's tenure, subsequent activities to spread awareness of the new policies among employees, progress toward achieving the objectives of the Mid-term Business Plan and associated issues remaining to be addressed in the future, and the company's vision for its future.

The meeting then developed into a constructive dialog with institutional investors, who offered views and questions on a wide range of topics including non-financial information such as key issues and risks as the company pursues sustained growth, and the nature of the Board of Directors' discussions concerning the company's entry into and investments in new businesses, financial information such as the cost of capital.

Going forward, we will accelerate initiatives designed to achieve sustained growth over the long term by integrating the ESG perspective into our management through dialog with stakeholders.

CSR

**DyDo expands initiative offering free rental umbrellas at vending machines
Company will bring rental umbrellas to 16 of 47 Japanese prefectures this year!**

DyDo DRINCO's rental umbrella initiative, a community service program that began in October 2015 as an employee proposal, takes advantage of its vending machines to provide umbrellas for people to use free of charge in the event of unexpected rainstorms. The umbrellas have been popular so far, with customers praising them for having been useful in the event of unexpected rain.

During 2018, the fourth year of the program, we will bring the initiative to four new prefectures in an effort that will see as many as 500 vending machines in 16 prefectures supplied with umbrellas. Locations where umbrellas are likely to be used the most frequently are being given priority in the rollout.

Going forward, we will continue to help create a prosperous, energetic society in line with our Group Philosophy of “achieving happiness and prosperity together with people and society as a whole.”

Workstyle reforms

**DyDo introduces workstyle reforms that utilize canned coffee online!
Company publishes new “DyDo DRINCO in 3 Minutes” article (Japanese only)**

DyDo DRINCO has a feature on its website entitled “DyDo DRINCO in 3 Minutes” in which public relations workers disguised as reporters unexpectedly interview workers and make available data and information that is ordinarily limited to employees in order to help the public learn about the company's strengths and initiatives in a fun way.

On May 25, the series published a new article introducing the “caffeine nap,” an initiative in which the company encourages employees to take a short nap after enjoying a coffee as a way to boost productivity. This article is only available in Japanese.
